Revision: 29.07.2022

PARTS DR.C

SECTION 1: Identification of the substance/mixture and of the company/ undertaking
· 1.1 Product identifier
· Trade name: <u>PE - CHAIN/GEAR OIL</u>
 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.
 Application of the substance / the mixture Gear Oil Only for proper handling.
 1.3 Details of the supplier of the safety data sheet Manufacturer/Supplier:
Parts Europe GmbH Conrad-Roentgen-Strasse 2 54332 Wasserliesch/Trier Tel. +49 6501 96950 Web: www.partseurope.eu
 Further information obtainable from: Product safety service 1.4 Emergency telephone number: In case of a medical emergency following exposure to a chemical, the public should call NHS Direct in England or Wales 0845 46 47 or NHS 24 in Scotland 08454 24 24 24 (UK only).
SECTION 2: Hazards identification
• 2.1 Classification of the substance or mixture • Classification according to Regulation (EC) No 1272/2008 The product is not classified, according to the GB CLP regulation.
 2.2 Label elements Labelling according to Regulation (EC) No 1272/2008 Void Hazard pictograms Void Signal word Void Hazard statements Void Additional information:
Contains Polysulfides, di-tert-Bu, Reaction products of bis(2-methylpentan-2-yl)dithiophosphoric acid with phosphorus oxide, propylene oxide and amines, C12-14 alkyl (branched), Magnesium metaborate. May produce an allergic reaction. Safety data sheet available on request. • 2.3 Other hazards
• <i>Results of PBT and vPvB assessment</i> • <i>PBT:</i> Not applicable. • <i>vPvB:</i> Not applicable.
SECTION 3: Composition/information on ingredients

· 3.2 Mixtures

· **Description:** Mixture of substances listed below with nonhazardous additions.

EINECS: 273-103-3	Polysulfides, di-tert-Bu	≥1-<2.5%
	Skin Sens. 1, H317; Aquatic Chronic 3, H412	
	Specific concentration limits:	
	Skin Sens. 1; H317: C ≥46 %	
	Skin Sens. 1A; H317: 46 % ≤ C < 46 %	
		(Contd. on pag

Revision: 29.07.2022

Trade name: PE - CHAIN/GEAR OIL

EC number: 931-384-6 Reg.nr.: 01-2119493620-38	Mineral oils (mixture) Asp. Tox. 1, H304 Reaction products of bis(2-methylpentan-2-yl) dithiophosphoric acid with phosphorus oxide, propylene oxide and amines, C12-14 alkyl (branched) Eye Dam. 1, H318; Aquatic Chronic 2, H411; Acute Tox. 4, H302; Skin Sens. 1, H317	(Contd. of page 1) ≥0.25-≤2.5% ≥0.25-<1%
	Magnesium metaborate Skin Sens. 1, H317	≥0.1-<1%

· Additional information:

Note L: The classification as carcinogen does not apply because the mixture (or substance) contains less than 3% dimethyl sulfoxide extract (DMSO), measured according to IP 346. For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

- · 4.1 Description of first aid measures
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Generally the product does not irritate the skin.
- After eye contact: Rinse opened eye for several minutes under running water.
- · After swallowing:

Do not induce vomitting. Do not take in resorption stimulating agents. Consult a physician who will decide on need and method of emptying the stomach.

- **4.2 Most important symptoms and effects, both acute and delayed** No further relevant information available.
- **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- · 5.2 Special hazards arising from the substance or mixture
- In case of fire carbon, sulphur and nitrogen oxides can be formed.
- 5.3 Advice for firefighters
- · Protective equipment: No special measures required.

SECTION 6: Accidental release measures

- · 6.1 Personal precautions, protective equipment and emergency procedures Not required.
- 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- 6.3 Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). • 6.4 Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

(Contd. on page 3)

Printing date 29.07.2022

(Contd. of page 2)

SECTION 7: Handling and storage

· 7.1 Precautions for safe handling

Used oils (motor oils, gear oils, industrial oils) contain components causing skin cancer. Therefore, avoid skin contact by wearing protecting gloves. Carefully clean soiled parts of the skin with soap. • Information about fire - and explosion protection: Do not heat above flash point.

- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- · Storage class: 10
- · 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- · 8.1 Control parameters
- Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

The	glove material has to be impermeable and	I resistant to the product/ the substance/ the
prepa	aration.	(Contd. on page 5)

Revision: 29.07.2022

Trade name: PE - CHAIN/GEAR OIL

(Contd. of page 4) Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

• Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye/face protection Goggles recommended during refilling

· Body protection: Protective work clothing SECTION 9: Physical and chemical properties · 9.1 Information on basic physical and chemical properties · General Information · Physical state Fluid · Colour: Brown · Odour: Characteristic · Odour threshold: Not determined. • Melting point/freezing point: Undetermined. · Boiling point or initial boiling point and boiling range Undetermined. · Flammability Not applicable. · Lower and upper explosion limit Not determined. · Lower: · Upper: Not determined. · Flash point: >210 °C >260 °C (DIN 51794) · Ignition temperature: Decomposition temperature: Not determined. · pH Not determined. · Viscosity: 140 mm²/s @40 °C (DIN 51562-1) · Kinematic viscosity Consistency · Dynamic: Not determined. Solubility Not miscible or difficult to mix. · water: · Partition coefficient n-octanol/water (log Not determined. value) · Heat Capacity · Vapour pressure: Not determined. · Density and/or relative density Density at 20 °C: 0.895 g/cm3 (ASTM D 4052) Not determined. Relative density Not determined. · Vapour density · 9.2 Other information · Appearance: · Form: Fluid · Important information on protection of health and environment, and on safety. Auto-ignition temperature: Product is not selfigniting. Explosive properties: Product does not present an explosion hazard. Solvent separation test: · VOC (EC) 0.00 %

Asp. Tox. 1: Aspiration hazard - Category 1 Aquatic Chronic 2: Hazardous to the aquatic environment - long-term aquatic hazard - Category 2 Aquatic Chronic 3: Hazardous to the aquatic environment - long-term aquatic hazard – Category 3

Annex: Exposure scenario 1 · Short title of the exposure scenario Industrial use of lubricants and greases in vehicles or machinery Sector of Use SU3 Industrial uses: Uses of substances as such or in preparations at industrial sites · Product category PC16 Heat transfer fluids PC17 Hydraulic fluids PC24 Lubricants, greases, release products Process category PROC1 Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions. PROC2 Chemical production or refinery in closed continuous process with occasional controlled exposure or processes with equivalent containment conditions PROC8b Transfer of substance or mixture (charging and discharging) at dedicated facilities PROC9 Transfer of substance or mixture into small containers (dedicated filling line, including weighing) · Environmental release category ERC4 Use of non-reactive processing aid at industrial site (no inclusion into or onto article) ERC7 Use of functional fluid at industrial site · Description of the activities / processes covered in the Exposure Scenario See section 1 of the annex to the Safety Data Sheet. · Conditions of use · Duration and frequency 5 workdays/week. · Physical parameters · Physical state Fluid · Concentration of the substance in the mixture The substance is main component. · Other operational conditions · Other operational conditions affecting environmental exposure No special measures required. · Other operational conditions affecting consumer exposure Not required. · Other operational conditions affecting consumer exposure during the use of the product Not applicable. Risk management measures · Worker protection · Organisational protective measures No special measures required. · Technical protective measures No special measures required. · Personal protective measures No special measures required. · Measures for consumer protection No special measures required. · Environmental protection measures · Air No special measures required. · Water No special measures required. · Disposal measures Disposal must be made according to official regulations. Ensure that waste is collected and contained.

· Disposal procedures Dispose of product residues with household waste.

· Waste type Partially emptied and uncleaned packaging

· Exposure estimation

· Consumer Not relevant for this Exposure Scenario.

· Guidance for downstream users No further relevant information available.

Disposal procedures Dispose of product residues with household waste. Waste type Partially emptied and uncleaned packaging Exposure estimation Consumer Not relevant for this Exposure Scenario. Guidance for downstream users No further relevant information available. 	
 Other operational conditions affecting consumer exposure during the use of the product Not applicable. Risk management measures Worker protection Organisational protective measures No special measures required. Technical protective measures No special measures required. Personal protective measures No special measures required. Measures for consumer protection No special measures required. Environmental protection measures Air No special measures required. Water No special measures required. Disposal measures Disposal must be made according to official regulations. Ensure that waste is collected and contained. Waste type Partially emptied and uncleaned packaging Exposure estimation Consumer Not relevant for this Exposure Scenario. Guidance for downstream users No further relevant information available.

Annex: Exposure scenario 3

Short title of the exposure scenario Private use of lubricants and greases in vehicles or machines
 Sector of Use SU21 Consumer uses: Private households / general public / consumers

(Contd. on page 12) GB

Printing date 29.07.2022

Version number 1.0

Revision: 29.07.2022

Trade name: PE - CHAIN/GEAR OIL

	(Contd. of page
Product category PC24 Lubricants, greases, release products	
Environmental release category	
ERC9a Widespread use of functional fluid (indoor)	
ERC9b Widespread use of functional fluid (outdoor)	
Description of the activities / processes covered in the Exposure Scena	ario
See section 1 of the annex to the Safety Data Sheet.	
Conditions of use	
Duration and frequency 5 workdays/week.	
Physical parameters	
Physical state Fluid	
Concentration of the substance in the mixture The substance is main con	mponent.
Other operational conditions	
Other operational conditions affecting environmental exposure No spec	
Other operational conditions affecting consumer exposure Not required	
Other operational conditions affecting consumer exposure during the u	use of the product
Not applicable.	
Risk management measures	
Worker protection	
Organisational protective measures No special measures required.	
Technical protective measures No special measures required.	
Personal protective measures No special measures required.	
Measures for consumer protection No special measures required.	
Environmental protection measures	
Air No special measures required.	
Water No special measures required.	
Disposal measures	
Disposal must be made according to official regulations.	
Ensure that waste is collected and contained.	
Disposal procedures Dispose of product residues with household waste.	
Waste type Partially emptied and uncleaned packaging	
Exposure estimation	
Consumer Not relevant for this Exposure Scenario.	
Guidance for downstream users No further relevant information available.
